

Family, Friends, and People of Good Will,

On December 12th 2014, our whole world has changed in a matter of seconds. On her way from work, our 23-year-old daughter, Agnieszka, was hit with great force by a car on a pedestrian crossing. She suffered extensive head injuries. To this day she has not regained consciousness, she remains in a coma. With all our forces we're fighting for her to come back to us. The greatest chance of success gives intensive rehabilitation in the first weeks after the injury. Unfortunately, its costs exceed our capacities.

Therefore, we dare to ask you for help.

Sedeka Foundation has taken Agnieszka under its protective wings and provided her with an individual account.

If you can make a donation in the form of a payment to the following account:
